België

Belgium will allow the movement into its territory of bovine animals, caprine animals, ovine animals, kept cervid animals, kept camelid animals and other kept ungulates in accordance with either of the following conditions from 1 November 2026:

1. Animals independent of age (in implementing point 3(b) and 3(c) of Part 1 of Annex IX to Delegated Regulation (EU) 2020/688) and unless the animals comply with the second condition:
- The animals are protected against vectors (Culicoides) by insecticides or repellents for at least 14 days preceding the date of movement; and have been subjected to a PCR test for all bluetongue serotypes (1-24) reported in the Member State of origin during the previous 2 years with favourable results taken at least 14 days after the start of the protection against vectors (pooling of whole blood samples (1/3) to perform the test is hereby authorised).
- No conditions are set for BTV3.
2. Animals over 70 days of age (in implementing point 3(a)-3(c) of Part 1 of Annex IX to Delegated Regulation (EU) 2020/688) and unless the animals comply with the first condition:
- The animals do not comply with the requirements in point 2(c) of Part 1 of Annex IX to Delegated Regulation (EU) 2020/688 but they have been vaccinated against all bluetongue serotypes (1-24) declared in the Member State of origin during the previous 2 years, other than BTV3. An animal is considered vaccinated if the animal is vaccinated in accordance with the specifications of an authorised vaccine.
